

## Your sustainable volunteer project

During your voluntary service in sports you have the task to plan and carry out your own project. This should contribute to more sustainability in your sports club / school.

### Sustainable development - SDGs

In September 2015, the United Nations adopted the "[Agenda 2030 for Sustainable Development](#)" together with its 193 member states. At its core are 17 Sustainable Development Goals (SDGs). The 17 goals are indivisible and interdependent. In the volunteer services we would like to work together with you to achieve these goals.

## ZIELE FÜR NACHHALTIGE ENTWICKLUNG

Make the goals your goals and help to inspire others to do the same!!!

Let's make the world a little better together. ☺

### Requirements – That should be in there:

- ✓ There is something written about all four areas (Project introduction, preparation, implementation & reflection).
- ✓ Minimum length 1,5 – 2 pages, Arial, Font size 10
- ✓ Continuous text (no headwords) with understandable content. Connections must be made clear.
- ✓ If two people work on one project: Both should write their own report and their own contribution must be made clear.
- ✓ Consideration of at least one of the 17 SDGs (suggestions/ideas: [17 sustainability goals](#) and via the [Instagram account of Sportjugend Niedersachsen](#))

On the final seminar you must briefly present your sustainable FWD project. There are no limits to your creativity. Create a poster or flipchart for your presentation!

Finally, a project report must be written. Stick to our requirements when writing the report. Use the [project report Word template](#) and upload the finished report as PDF on the learning platform (Moodle/Edubreak) in your course room:

<https://moodle.fwd-sport.de/>

<https://fwd-sport.edubreak.de/>

We wish you a lot of fun and success with your project and are looking forward to your presentation.

Your volunteer service team ☺
